Table - User Manual

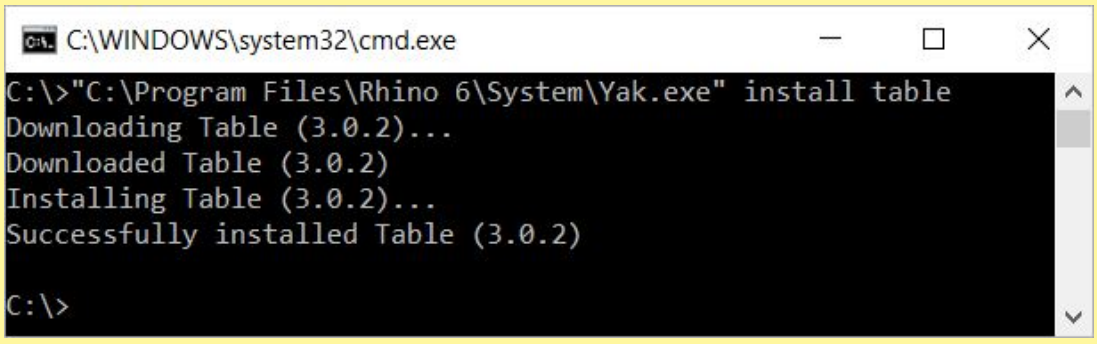
Introduction

Table is a plugin for Rhino 3D, designed to add the possibility to create, import or edit spreadsheets in your Rhino document.

Plugin installation

The plugin installer can be downloaded at: https://www.tomkod.com/product/tables/ A free trial is included, and yearly licenses can be purchased on the aforementioned page. *Table* works for both Rhino 5 and Rhino 6, but some features only exist in the Rhino 6 version.

Our *Table* plugin is also compatible with Yak, Rhino's new package manager. You can install it from the repository with the following command line:



License activation

The free evaluation can be used once per computer, and requires a network access to the following adress: 51.254.220.203 The license activation requires network access to www.tomkod.com Please check your firewall in case of failure.

Toolbar

The toolbars for Rhino are always included in your plugins installation directory, or can be downloaded here. To install them, you just have to drag/drop the file “Tomkod.rui” to a rhino window.

Features and commands

TableAbout

This command can be used only from the command line prompt. It displays the plugin's current revision and license status.
